Notes on the McIntyre Final Five system

As its name states, the McIntyre final five system features five teams. From the second round the McIntyre final five system is the same as the Page-McIntyre system; however, in the first round the lowest two ranked teams play to eliminate one team and the second and third ranked teams determine which match they will play in the second round. The highest ranked team has a bye in the first round.

In this case, if all teams have an even chance of winning each finals match, the highest ranked team has a 37.5% chance, ranks two and three have a 25% chance and the lowest two ranked teams have a 6.25% chance of winning the competition.
